## **Overall Crime Increases During Third Quarter of 2000**

Montgomery County Chief of Police Charles A. Moose today announced a modest increase in overall crime within the County during the third quarter of this year, with Part I crimes increasing six percent. Part I crimes are defined as murders, rapes, robberies, aggravated assaults, burglaries, larcenies, and auto thefts. Uniform Crime Reporting (UCR) statistics for the third quarter of 2000, compared to the same period in 1999 reveal:

- Total Crime (Part I and Part II Totals) increased two percent
- Part I Crime rose six percent
- Part II Crime declined by one-half percent

During the third quarter of 2000, murders decreased by 25% (from four to three). Rapes totaled 53 compared to 34 incidents during the same period last year for a 56% increase. Robbery and Aggravated Assaults increased by 15% and 31% respectively from the same comparison period. Auto thefts also increased by 14%, from 682 during the third quarter of 1999 to 779 incidents this quarter.

The nine-month cumulative totals for 2000, when compared to the same period last year, revealed that murders decreased by 40%, while rapes and robberies increased by 32% and 18% respectively. Aggravated assaults increased by almost five percent, and auto thefts increased by 14%.

In making today's announcement, Chief Moose particularly expressed concern about the continued increase in rape incidents reported so far this year, in contrast to last year's decade-low totals. Moose commented: "Sexual assault is one of the most frightening and traumatic events that any victim will ever experience. The vast majority of these incidents involved suspects who were acquainted with their victims. We all need to do more to reduce these crimes. We need remember that everyone is a potential victim and

we need to take steps to reduce the risk of sexual assault. And, if you are victimized, please seek help and report it to the police."

Moose also emphasized the need for all of us to work harder at reducing the incidence of other categories of crime in our communities. Moose commented: "We all must work together to maintain the high quality of our communities. While our officers and employees will continue to focus our resources on combating crime problems, there is much more that we, as a community, must do. We all need to keep our eyes and ears open to suspicious activities in our neighborhoods and report them to the police. We also need to heed the advice of our auto theft investigators and not leave our cars running during the cold weather season. While some reasons for crime increases relate to a variety of societal factors beyond our control, there is still much more we can do as individuals to reduce the incidence of crime victimization."

Moose also reemphasized the importance of keeping a strong focus on traffic safety, especially as we find ourselves in the midst of the holiday season. As he stated at a recent press conference about pedestrian safety, Moose remarked: "To date, Montgomery County has experienced a five-year high in the number of traffic deaths (54) and we now have as many pedestrians killed in collisions this year (15) as we have had homicide victims. Many of these deaths could have been prevented. Once again, I am asking everyone to drive the speed limit, stop for red lights, use your seatbelts and get your child safety seats inspected, and never drink and drive. And, if you think that you have struck a pedestrian, you must stop and either render or request assistance."

**Note:** A complete crime report is available for pickup at Montgomery County Police Headquarters, Media Services Division, 2350 Research Boulevard, Rockville, Maryland 20850
